

Seamless Flexibility with Anna Laprade

Seamless Flexibility – This class is a one day certification class, designed to teach the methods of Sew In Weft extensions to stylists. During this class, attendees will learn how to apply different types of weft extensions to a mannequin. They will be exposed to some advanced application techniques as well. They will learn how to cut and blend the extensions, as well as learn the aftercare and maintenance for this method. Participants will also be given some marketing ideas and suggestions associated with this method of extensions. Included in the class fee is a Sew In Weft Kit for each participant, with all the tools necessary to learn the application.
