

LIQUIDLUXURIES

A DIVISION OF TBBS

Join Lisa for a dynamic three-hour deep dive into the world of Salon Exclusive Hair Colour, where she will demystify common myths and clarify the often misunderstood science behind the products we use every day. From ammonia vs. ammonia-free formulas to the differences between dye types and how they interact within hair colour, this session is designed to reinforce the core fundamentals of hair coloring.

Whether you are working with a glossing system be it Acid or Alkaline, Permanent Color and Semi Permanent Colour, Lisa will guide you through the techniques and chemistry behind each approach. She will also explore the different methods of gray coverage being used in salons today.

This interactive presentation encourages questions, so bring your curiosity! We will also cover key ingredients and address concerns about what is truly harmful in hair color formulations.

Perfect for both seasoned professionals looking to refresh their knowledge, as well as stylists just starting out and trying to navigate the world of Salon Exclusive Hair Colour this session promises clarity, confidence, and a fresh perspective on Hair Colour.

Hair Color 101: Exploring the Hair Color Myths With Lisa Bremner
