PRESS RELEASE

Medika Beauty Institute Inc., Biomedika & Tavger Medical Aesthetics Present:
"Newest Innovation in Skin Technology" Seminar on April 28, 2025

Halifax, Nova Scotia – Medika Beauty Institute Inc., in collaboration with Biomedika and Tavger Medical Aesthetics, proudly announces an exclusive educational seminar, "Newest Innovation in Skin Technology," set to take place on April 28, 2025.

This premier event will showcase groundbreaking advancements in medical aesthetics, offering professionals a firsthand look at the latest innovations revolutionizing the skincare and beauty industry.

This must-attend seminar will feature cutting-edge live demonstrations, in-depth insights, and expert discussions on three game-changing technologies:

- **Tavger Medical Affinity Mesotherapy** – Affinity Gentle Jets System – A Patented Revolution in Skin Therapy. A cutting-edge, non-invasive transdermal delivery system that Restores homeostasis, Boosts collagen synthesis, Enhances skin rejuvenation with unparalleled efficacy, Provides needle-free mesotherapy & Ensures painless treatment at all skin depths.
- **Vita Peel by Biomedika** – A state-of-the-art triphasic peeling system designed to resurface, rejuvenate, and revitalize skin at a cellular level, powered by advanced bio-stimulation. With advance ingredients to deliver a skin peel with no downtime.
- **Diode Laser Hair Removal** – A breakthrough in laser technology with triple wavelength in permanent hair reduction, offering superior precision, speed, and safety, making it the gold standard in laser treatments. This cutting edge device can deliver 4500w of power making full leg hair removal complete in just 8 minutes.
