

QUANNESSENCE

Class: Advanced Medical Esthetics – Dermaplaning & Glycolic

LYNN PHILIPPE, Owner
Soft Touch Esthetics, Saint John, NB

Lynn Philippe, owner of Soft Touch Esthetics in Saint John, New Brunswick since 1998.

I have been a practicing aesthetician for over 24 years having graduated from Zeeneba School of Esthetics in Calgary, Alberta.

Through professional development, I have kept current in today's marketplace. My passion is skincare and helping those who have difficult skin conditions.

I have achieved this by always being current and educated. My certifications include IPL, laser hair removal, advanced electrolysis, thermo coagulation, dermaplaning, skin reading, microblading, and several chemical peel courses. As well, I have been trained in the application of advanced skincare lines and am a certified master pedicurist. My desire is helping other aestheticians in achieving their goals to give the best possible treatments to their clients.

QUANNESSENCE

Class Description:

Dermaplaning is a wonderful procedure that may be used as a stand-alone service or can be combined with Glycolic peels for enhanced results. With next to no downtime, Dermaplaning will effectively deliver results by controlling breakouts, minimize acne scarring and offer the smoothest skin imaginable. Dermaplaning is a safe and effective form of exfoliation, which immediately removes 2-3 weeks of dead skin cells from the epidermis. This procedure encourages monthly cell turnover and skin regeneration.
