Class Description:

In this class you will learn the technique for Box Braids. This type of hair style is best described as "boxy", consisting of square-shaped hair divisions. Box braids are generally created by using synthetic hair to add thickness as well as length. Because they are not attached to the scalp like other similar styles, box braids can be styled in a number of different ways. A great add-on service for hairstylists!

Cost: \$40.00 – *includes supplies needed for class*
