

Class: HENNA BROW by the Hennatician (Look & Learn)

Nicole Neve – Bio

With effervescent personality Nicole Neve has been an educator for EuroBeauty since 2015, passing on her knowledge and passion for the ever-changing esthetics industry. Her ability to transfer in-depth and detailed principles to professionals throughout the years has been an asset to those who've had the privilege of participating in education sessions she is leading. As a part of the beauty industry since 2002 and as a licenced esthetician since 2010, Nikki is the quintessential definition of "Knowledge is Power," continuously up-dating her own knowledge base to better serve her clientele in her wildly successful mobile esthetics business and in her career of educating peers. "I feel the backbone of our success as estheticians is to keep our skill set and knowledge in a constant state of evolution and improvement." Nicole is the inhouse educator for the critically acclaimed Hydropeptide professional skincare line as a skin care specialist, teaching the technical skills of Brazilian Hard Waxing, and Dermaplaning as well as teaching and developing the Advanced Theoretical Skin Care principles curriculum too!

Class Description:

Steeped in ancient traditions of celebration and ceremony, henna is a potent symbol of feminine empowerment and liberation.

In this look and learn session you will see how henna services are able to create solutions for clients looking to achieve full, powdery eyebrows without having to resort to permanent options. Through color and shape customizations, professionals will achieve semi-permanent arches that can correct previous waxing mistakes, create density for sparseness and provide an option for clients with allergies to regular brow coloring products.

We will reveal the Henna Brow Australia kit and how this can become a lucrative service to add to your current spa menu. Henna Brow by the Hennatician supplies the highest quality of henna products and service training in the world sourcing the best quality Henna in the world from Egypt; with pigment additives, chemicals or ammonia as well as being Gluten-free, Vegan, Kosher and Halal-friendly. Join us for an afternoon catered to the brow specialists in the industry.
