

# REDKEN

**Class: New Color Trends 2019 Fall - (look and learn)**

***~Barrett Wambolt~ (English Instructor)***

*As a Redken Educator, Barrett is inspiring and motivating while consistently demonstrating standards of excellence. She has worked with many international renowned stylists and attended numerous national and international training programs in New York, Las Vegas, Toronto, and Montreal.*

*Barrett has been an Artistic Director of Atlantic Fashion week and has worked backstage for several hair shows including fusion for several years. Barrett is one of the select few across Canada to be Redken Certified in Color, Design, and Finishing. As a result of being so well rounded she has become a sought after*

*educator across Canada.*

***~Vanessa Plourde~ (French Instructor)***

*Vanessa was immediately charmed by the human aspect of Redken's teaching, but I was especially challenged by the message that is communicated through each Redken training; to learn better to live better to make a better living. After applying this philosophy and my recent apprenticeships to my work in the salon, she immediately saw her income increased. Following this observation, she immediately wanted to be part of the Redken team to help people to evolve in their turn! It's with determination, application and open-mindedness that her vision of the hairstyle has materialized, it is articulated today around a single thought that she considers essential and allows her to share her knowledge with stylists who want to evolve, grow and find solutions to their problem, or what ever it is.*

*"Redken gave me the opportunity to simplify people's lives. This is what I will share with you in my trainings."*
