

HYDROPEPTIDE

Epigenetic Chemical Peels

Immerse yourself in the world of epigenetic clinical skin care. With Hydropeptide's Introduction to Innovative Chemical Peels Class you will learn how to choose and create dramatic, noticeable chemical resurfacing for your clients with zero-down time, provide remarkable results and a luxurious experience. Harness the blended chemistry of traditional peeling ingredients, intelligent peptides, plant-based stem cells, growth factors and high-functioning antioxidants. In this half-day complementary Discover Learning by EuroBeauty session you will experience the extraordinary power of peptides and 0.5 CU approved by the Cosmetology Association of Nova Scotia.
