### **CLASS: WET NAILS Workshop**

Taking the Lip Gloss Look to the Next Level

### **Instructor:**

Jennifer MacAskill

### *Description:*

Join international educator Jennifer MacAskill for the first Canadian Workshop launching the **newest** European Trend "**Wet Nails**". Trends are forever changing in the Nail industry and it can be exhausting to know all the products to use to create that perfect look.

What is a Lip Gloss Nail you ask? Similar to the glazed donut nail however, more of a natural and sheer look that you can choose to add shimmer to or not; and your final product will have a very natural and sheer end result that is the ultimate gloss and jelly effect.

This is a comprehensive and straightforward workshop demonstrating a 2-step system that will take all the guess work out of finding the perfect products to create the perfect "lip gloss" nail effect. This effect can be applied to all your clients and will help to keep you current and generate extra service revenue.

Wet Nails is a 2-step system comprised of UV-Gel and a Special UV-Top (Glossing)

**Pre-Requisite:** Must be an Esthetician or Nail Technician

**Tools Required:** Light Unit, Brushes, Files, Tools of the Trade. Attendees will work on themselves or a Plastic Tip

### **Course Cost:**

\$ 25.00 – each attendee will receive a **FREE WET Nails Kit** – Valued at \$65.00
