b) **Specific Licence (Natural Textured Hairstyling)**

Reasoning:

- Requested by Members and the Public
- To ensure Public and Member safety
- To recognize, empower, support, and include unlicensed individuals who excel in specialized hairstylist skill areas and who want to be part of the Association
- To offer a pathway for newcomers to Nova Scotia

This Licence permits the person to perform the services of wigs, weaving, braiding, cornrows, locks, knots, twists and all forms hair extensions and styling by hand or mechanical device; for the purpose of this definition the phrase “natural hair” shall include the use of artificial or natural hair “extensions or enhancements”.

e) Definition of "**Cosmetology**" at **By-Law 1.1(e)** - clarification and additions to wording

“For clarity, the definition of cosmetology in section 2(e) of the *Cosmetology Act* includes all of the functions included in the Red Seal (National Occupational Analysis) for the cosmetology trade and any cosmetology practice of beautifying the face, hair, and skin of any person by the hands, or the use of any mechanical application or appliance, for fee, gain or hope of reward.”

Motion by Bernadette Taylor for clarification of wording at By-Law 1.1(e) as discussed; seconded by Amy O’Keefe.

**Motion 10 Carried**

**Reasoning:**

- Removed from all previous Acts – clarity of the definition is required to ensure all aspects of Cosmetology are included
- To protect the Public from harm
- Cosmetologists are professionals thus all skills falling under the scope of practice of a “Cosmetologist” should remain with those who are trained and licensed to protect the Public pursuant to the *Cosmetology Act* (Estheticians, Hairstylists, Clinical Estheticians, Eyelash Artists, Nail Technicians, and Body Hair Removal Specialists)
- To keep up with an industry that is continually evolving
- Remain inclusive of all competences and new skills that fall under the skillset of a cosmetologist
- To provide additional pathways to obtain cosmetology skill training
- To protect all salons, spas, and the Industry as a whole

## Under NEW BUSINESS – NEW considerations 2022

### 1. Master Specific Licence titles

- Master Specific (skillset) Licence
- Specific Master Instructor (skillset) Licence

Master Instructor Specific (skillset) Licence with upgrade requirement, same as other Master Instructor requirements, except amend **Specific Cosmetology Instructor** to read - **Master Specific Cosmetology Instructor** (3 years required)

#### Reasoning

- Members' request for similar recognition
- Most professionals have a professional development requirement
- To protect the Public with new updated requirements
- All Masters should be recognized and remain updated in new skills and infection control requirements and processes
- There is currently no recognition for advanced training
- There is currently no Master level under Specific Licence categories
- Specific Cosmetologists are professionals and want to be treated equally as all other Master levels and Master Instructor Licence titles

### 2. Interim Instructor Licence – previous Licence removed in 2012.

#### Reasoning

- Members' and Instructors' request to have this Licence category reinstated to allow individuals who do not have the time required for a full Instructor Licence to be able to work part time to assist instructors
- To allow schools more access to qualified Members
- Members' request to assist in the classroom prior to having the time required for an Instructor's Licence, to gain Instructor experience and mentoring

### 4. Removal of eyelash extensions from the Esthetics and Make-up curriculum.

#### Reasoning

- Clear program requirements
- Esthetics and Make-up programs were required to offer an intro to eyelash extensions only; not enough to have graduates salon/floor ready causing concern for Public safety
- Most current graduates of esthetics do not want to learn or provide this service
- Eyelashes and Make-up are stand-alone programs, both requiring 300-hours of instruction. Eyelash hours cannot be inserted into the Esthetics program without extending the 1500-hour program

- Ensure qualified education and hands-on training of cosmetology graduates

**Note:** A licensed Esthetician or Make-up Artist providing lash extension services (prior to February 6, 2022), can apply to be grandfathered. The grandfathering period will be from February 7, 2022, to February 6, 2023. Applications can be found on the Association's website.
