

LCN ~ Advanced Pedique – Reconstruction \$ 150.00
Cosmetology Association Upgrade
½ Day 1:00 to 4:30

With this course you will learn the techniques of specialized and advanced Pedique Reconstruction services. You will receive comprehensive hands on practical training for the removal of mykotic and detached nail plates incorporating an electric file. The toenails will be replaced by creating prosthetic toenails using LCN's Pedique. This product is a revolutionary light cured resin designed specifically for toenails.

Course Pre-Requisite: Must be esthetician or Licensed Nail technician.

Student must provide own model who has either detached, mykotic or deformed toenails.

Model is needed

Students must bring own light unit, electric file , smock & implements to class.

Next Class Date March 11th
